The Bureau of the Census announces the availability of the
1990 EDITION SCHEDULE B

An updated edition of Schedule B, "Statistical Classification of Domestic and Foreign Commodities Exported from the United States".

This edition contains export commodity classifications based on the nomenclature structure of the Harmonized Commodity Description and Coding System (Harmonized System).

The commodity numbers contained in this revised Schedule B are to be reported on Shipper's Export Declarations beginning on January 1, 1990.

The new edition of Schedule B contains additional commodity classifications, renumbers, explanations, notes and textual changes not included in the 1988 edition. The changes update the Export Schedule in line with the Harmonized Tariff Schedule of the United States, Annotated, and help clarify some of the classification coverages.

The alphabetical index was also revised to add additional items and to update six digit assignments. This index is contained in a separate volume and shows the first six digits of the applicable Schedule B codes for each commodity listed. The index is included in the price of the basic publication. Supplemental changes are included and are issued on an irregular basis.
